---

#### Home & Location Photography

- Half/Full Day session times includes setting up equipment if necessary, and getting to know the clients (especially getting comfortable with kids, or them with ISP).
- Half/Full Day session also includes return visit to present images for complimentary print choices, and ordering of Photo Options above.
- High Key lighting ideally requires a room 3m by 4m or more. Low Key lighting requires a darker room, or evening (very suited to Scottish winters).
- Distance – ISP is based in Stonehaven, but we use an approximate elongated 20 mile radius from Stonehaven and Aberdeen. As a rough guide, covers out to Montrose, Forfar, Alford, Inverurie, Oldmeldrum and Ellon.

#### Photo Options

- Prints above 8" x 10" can include as standard, some retouching; e.g. blemish removal, skin softening, etc.
- Discounts are available on large or multiple print orders. (Ask before ordering – online purchasing will not deal with pricing changes)

#### Notes:

We can be flexible with requirements and pricing, especially with regard to Charity events.

Photographs taken by Ian Shewan Photography may be used for future advertising purposes, including ISP website, flyers, social media and other promotional material. Please write or email if you do not wish images to be used in ISP promotional material.
